12

12 Lots de 5 melons pour 2€
60 melons en tout

$$12 \text{ lots} \times 2\text{€} = 24\text{€}$$

**12 Lots de 5 melons pour 2€
60 melons en tout**

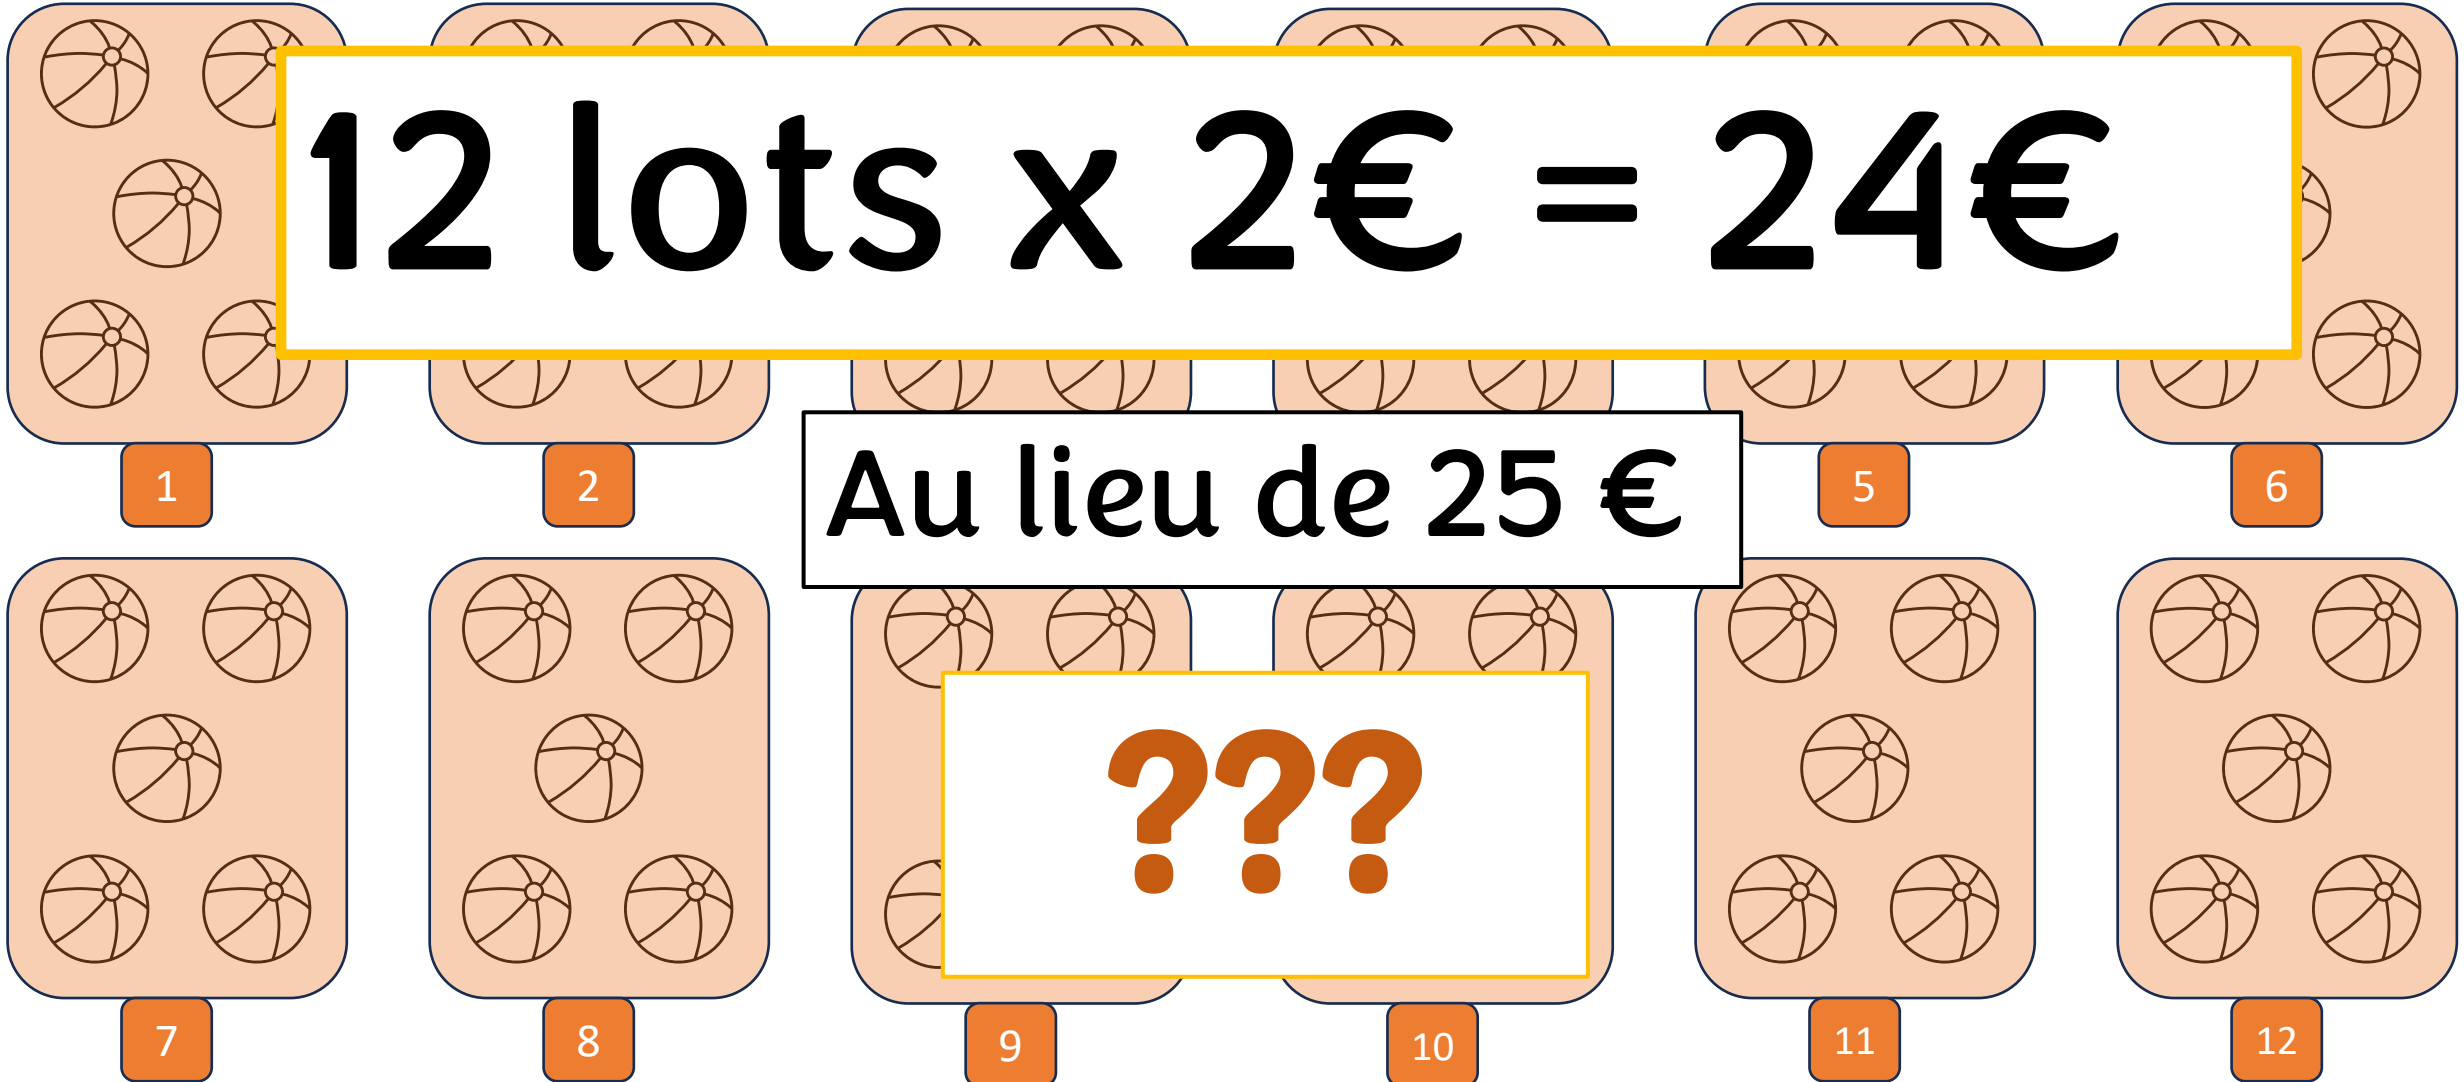

$$12 \text{ lots} \times 2\text{€} = 24\text{€}$$

Au lieu de 25 €

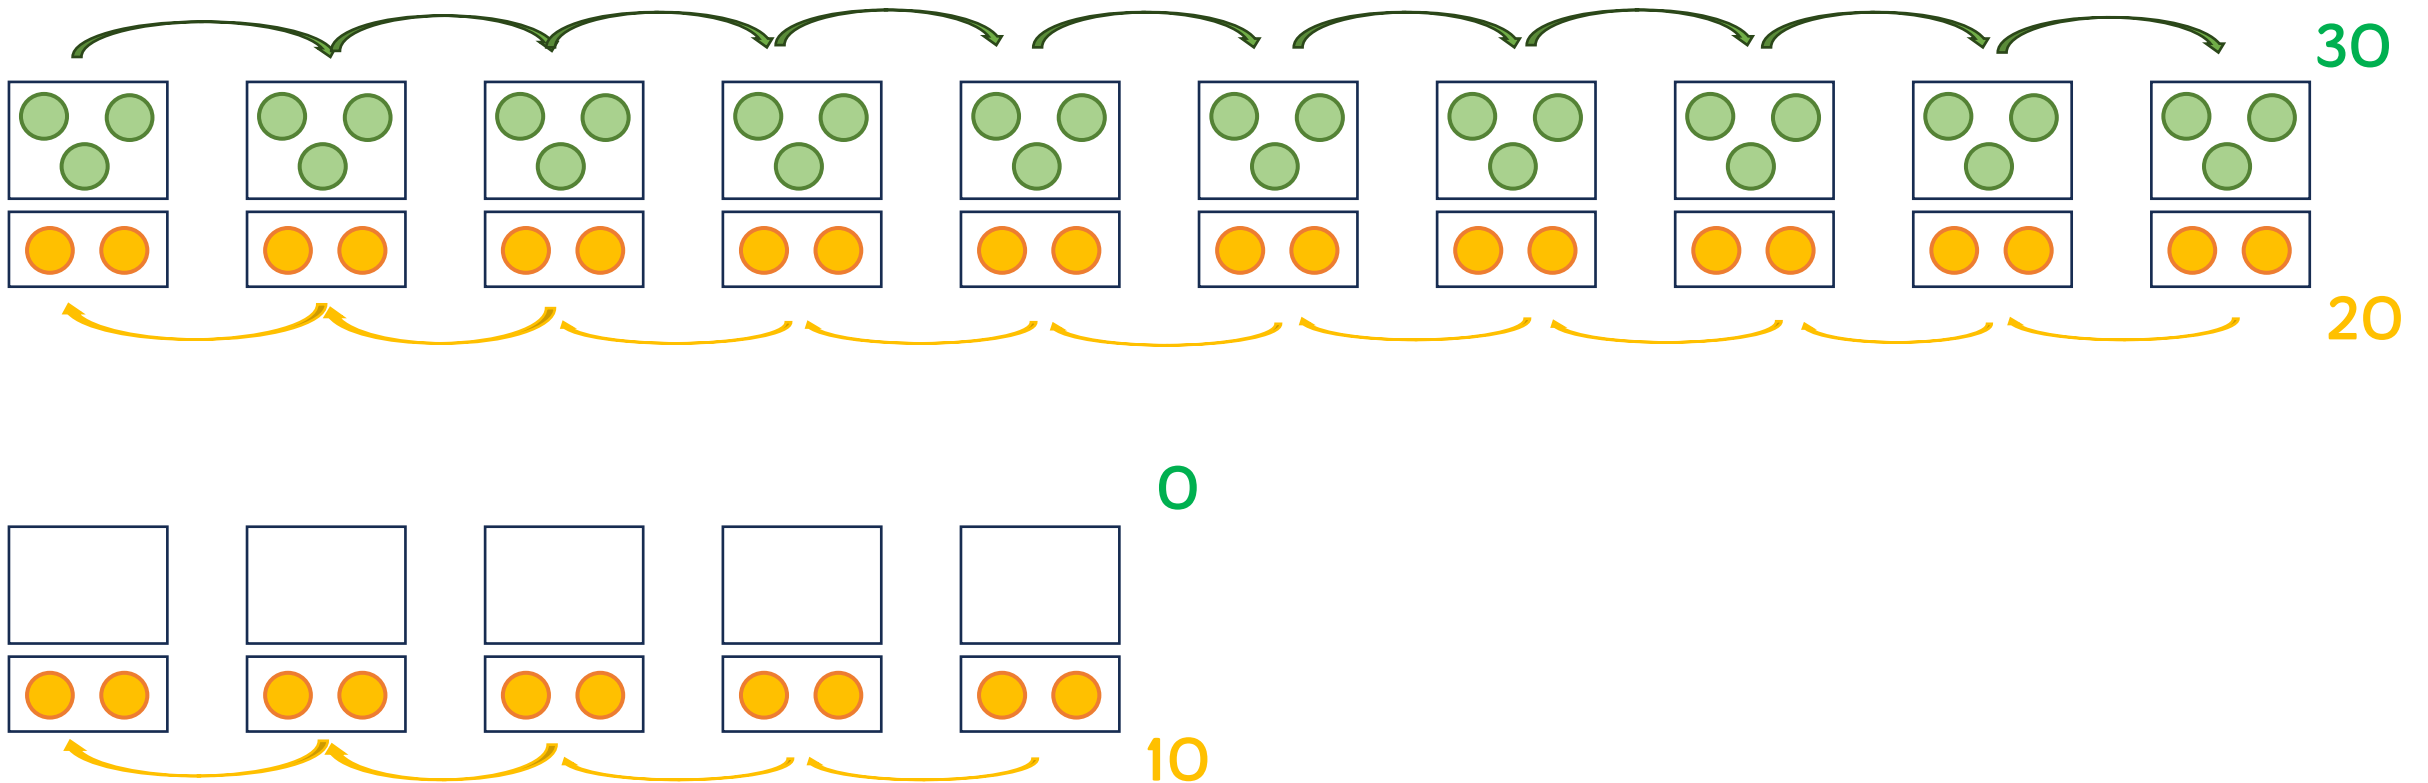

???

60 melons en tout, mais ...

● 30 melons de Amel / 1€ les 3

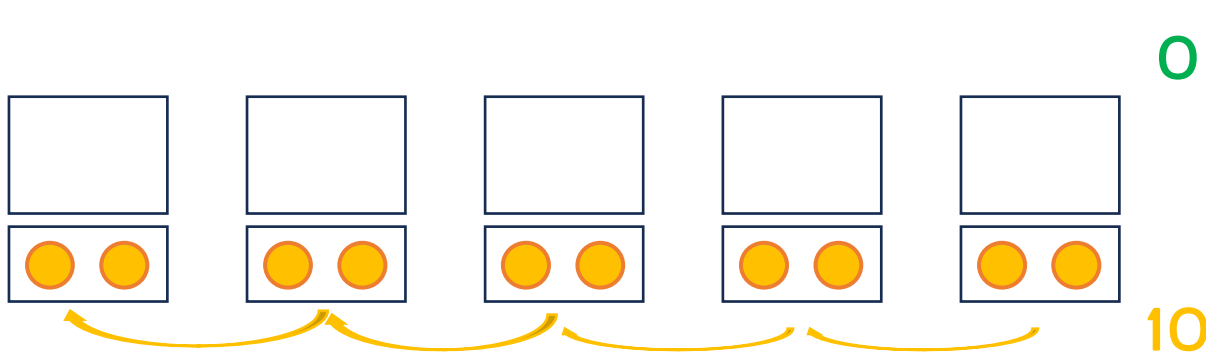

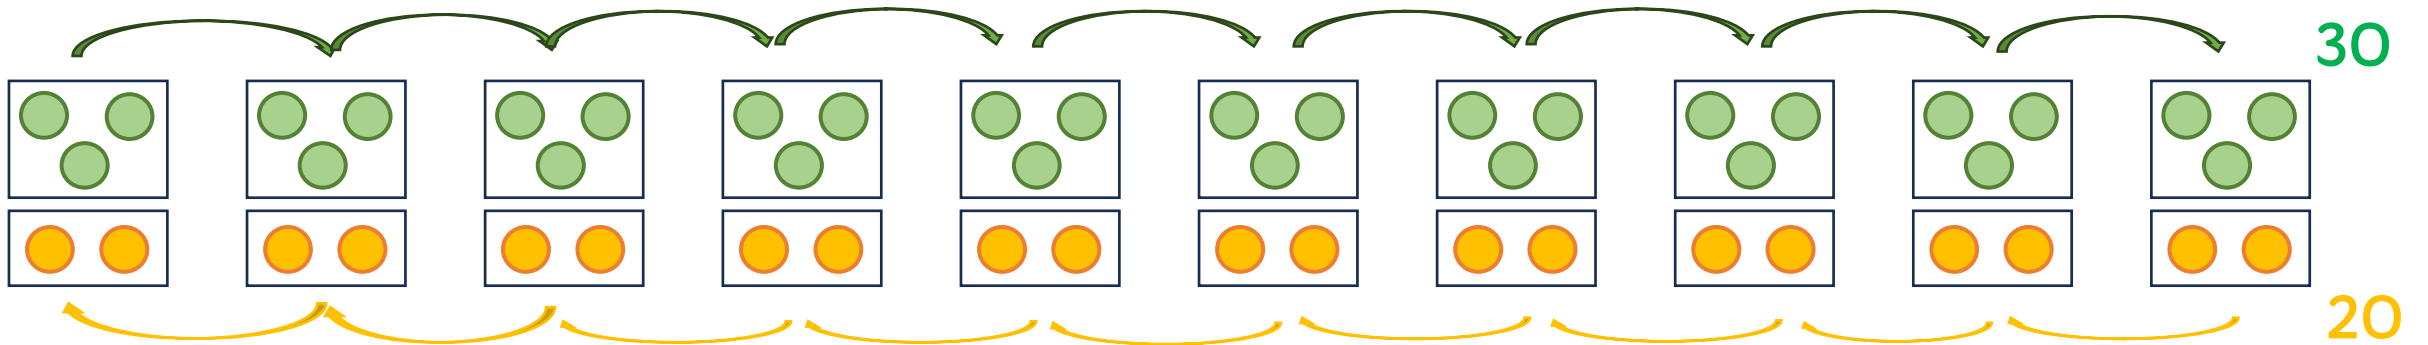

● 30 melons de Iman / 1€ les 2

60 melons en tout, mais ...

● 30 melons de Amel / 1€ les 3

● 30 melons de Iman / 1€ les 2

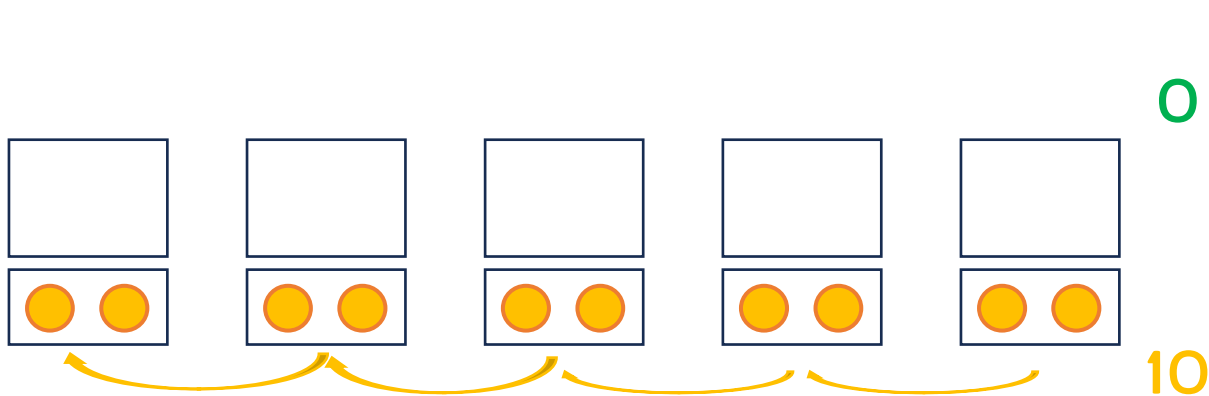

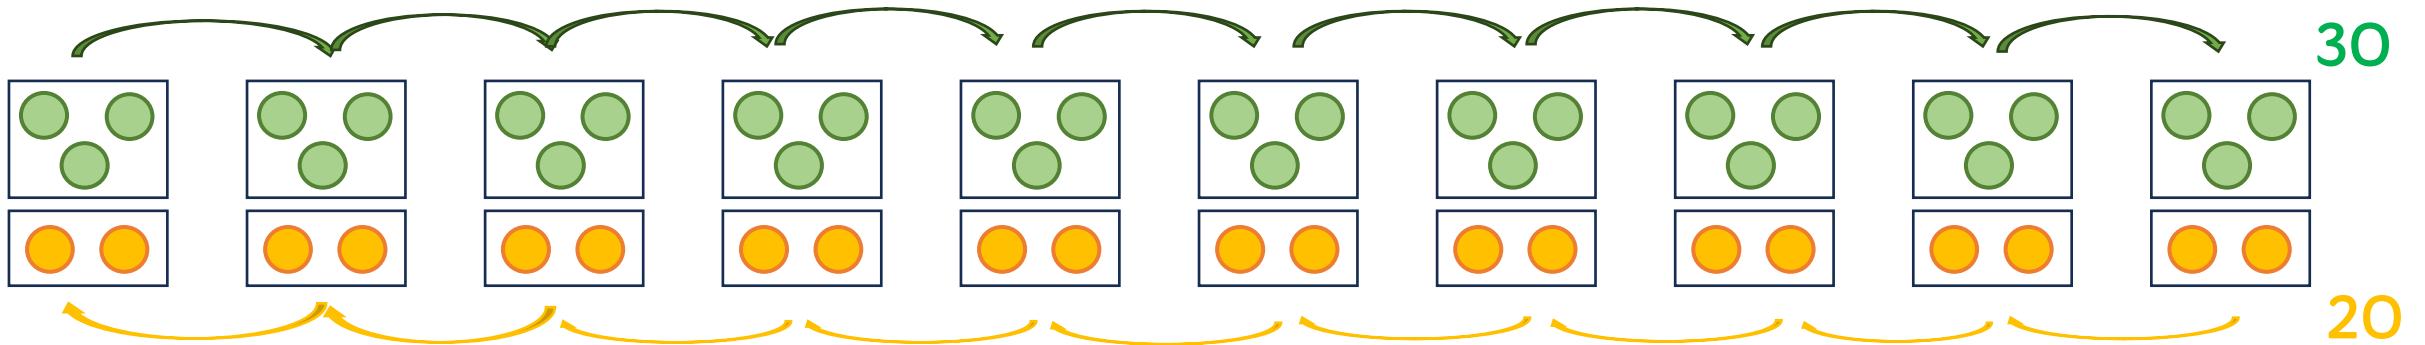

0 Pour respecter le nombre de melons
Il y a donc :
- 10 lots de 5 melons (3 de Amel et 2 de Iman)
- 5 lots de 2 melons de Iman

60 melons en tout, mais ...

● 30 melons de Amel / 1€ les 3

● 30 melons de Iman / 1€ les 2

On a donc

- 10 lots de 5 melons (3 de Amel et 2 de Iman), soit $2€ \times 10 \text{ lots} = 20€$
- 5 lots de 2 melons de Iman, soit $1€ \times 5 \text{ lots} = 5€$

TOTAL : 25€
